

AN OHIO LEAD.

An Aged Parent, After Dividing His Wealth, Is Turned Out of Doors by His Children.

AKRON O., November 15.—An old gentleman named Henry Harbeck, who is incapacitated from work, having been broken down by his severe labor in past years, and who has a family of well-to-do sons and daughters, made so by his own hard labor and frugality, was thrust out of home a few nights ago, because he could no longer bring anything into the household to the luxury of his children. Several years ago Mr. Harbeck divided his property among the children. After they thrust him from his house he was given shelter by a colored family living in the vicinity of his home and who were once his servants. The colored people, however, soon grew tired of supporting and taking charge of the old man, and last night they requested him to leave their humble home. Mr. Harbeck tottered about the place and wandered helplessly about the streets. At about 11 o'clock he was found by two gentlemen, who led him to the city prison, where he was placed in care of a police lieutenant. The humane society will investigate the case.

The Inefficient Fire Alarm.

NEW YORK, November 15.—In the investigation into the cause of the Park theater fire, it transpired to-day that the so-called nightly examination of the fire alarm in theaters by detailed firemen, consists in a mere ocular inspection, no test of the wires being practicable unless the glass fronts of the alarm boxes are broken in and it not being understood to be the fireman's duty to test the patent extinguisher. This testimony indicates that in no theater in the city can absolute reliance be placed in the working of the fire alarm, as no recent test has been made, but an officer of the fire department stated to-day that arrangements are being perfected whereby actual tests of the wires be made before the beginning of every performance.

Vanderbilt Beef Company.

CHICAGO, November 15.—In an interview this evening, Uncle Rufus Hatch, of New York, said: It is reported that Mr. Vanderbilt has recently organized a company to run refrigerators from the west into eastern cities, in competition with other refrigerator companies. If this is true, he has no good motive in it, and is simply trying to drive the other companies out of the business. His object is to restore his stockyard interests to the position they were in before the refrigerator war. Mr. Hatch expressed the opinion that the advantages of refrigerator beef in every way were such that it must run out even those opposed by millions invested in the stockyards at Chicago and eastern cities.

The Telfair Case.

WASHINGTON, November 15.—Argument was begun before the United States supreme court to-day in the celebrated Telfair will case, coming up from Georgia. This case involves about \$800,000 worth of property, real and personal, which was devised by Miss Mary Telfair in 1875, chiefly to various charitable and public uses. The will is contested by the nearest of kin, and the discussion presents issues similar to those of the celebrated Girard will case. The questions upon the bench today indicated that the decision of Justice Bradley in the case below, sustaining the will, would be sustained.

A Chattanooga Failure.

CHATTANOOGA, November 15.—J. P. McCall, wholesale dealer in dry goods and notions, assigned to-day. Liabilities \$10,000; assets \$75,000. The cause of the assignment was heavy losses in a fruit canning establishment in Illinois, the creditors of which were about to attach the Chattanooga store. The assignment was made to protect his partners, Amon & Devese, of Greensboro, Georgia, who had no interest in the Illinois concern, for liability for his individual debts. The house was doing a prosperous business. The creditors are principally in New York city, Troy, N. Y., and Baltimore.

A Stuffed Diamond Box.

NEW YORK, November 15.—A package which ought to have contained diamonds to the value of \$20,000, shipped on board the steamer City of Chester, and consigned to Louis Strasberger & Company, Maiden Lane, was on opening in the examining room of the appraiser's department, found to be stuffed with paper but no diamonds were discovered therein. Such examination as could be made indicates that the diamonds were abstracted before the box was placed on board the steamer in Liverpool.

The President's Message.

WASHINGTON, November 15.—It is stated that Mr. Arthur has nearly completed his message to congress. It will, it is said, contain nothing very startling. The president will, it is said, repeat in this message the recommendation of a liberal appropriation for the improvement of the Mississippi river made to congress last year in a special message. The greatest care will be exercised to prevent the premature publication, either of the president's message or of Secretary Folger's report.

Grant's Plea for Porter.

NEW YORK, November 15.—In the December number of the North American Review, issued to-day, General Grant has an article of ten pages, entitled, "An Undesired Stigma," in which he reviews Fitz John Porter's case. He reaches the conclusion from military considerations that the finding of the court-martial was erroneous, and that a great wrong was done to General Porter, which ought to be undone, as far as is now possible, and as speedily as possible.

He Killed the Deer.

MOBILE, ALA., November 15.—A special to the Register from Chunchula, a station on the Mobile and Ohio railroad, eighteen miles from here, says: James Roberts, while deer hunting, accidentally shot and killed his brother-in-law, Willie Cops, near this place this morning. Two buckshot hit Cops, one taking effect near the eye, the other near the heart, causing instant death. The same discharge killed the deer.

The Texas Quarantine.

GALVESTON, November 15.—The News, Austin special says: The governor has modified the quarantine proclamation regarding Starr county, official reports show that the cold is not severe enough to destroy the germ of yellow fever at Brownsville, and the fever still rages at Mier and Camargo. He authorizes the local boards to act promptly in case of danger.

Killed for a Kiss.

NEW YORK, November 15.—Henry Kuhn, aged 20, of 18 Brooklyn street, Brooklyn, attempted to kiss Barbara Duchlein, aged 16, Sunday evening. Her companion, named George Grover, aged 19, tried to stop him, and Kuhn became enraged and struck Grover. They clinched, and Kuhn was thrown heavily, his head striking the curb. Kuhn is dying and Grover has been arrested.

Mexican Business Matters.

MEXICO, November 15.—John Schuller, of St. Louis, was this morning appointed general manager of the Mexican National Construction company. James Sullivan continues to represent the company in Mexico. The mercantile and national banks here advanced their rate of discount from 6 to 7 per cent. The rates for accounts current are from 7 to 8 per cent.

An Old Man's Suicide.

CLEVELAND, November 15.—A Mansfield special to the Ledger reports that George Thrush, 60 years of age, a rich farmer, who lived three and a half miles from town, committed suicide to-day by hanging himself by a halter in his barn. The cause was temporary insanity.

Fever-Stricken Providence.

NEW YORK, November 15.—A Providence, R. I., dispatch says: "The fever epidemic here appears to be increasing. It is reported that there is over 2,000 cases of fever, ranging from light malarial to malignant typhoid in the city."

PUGILISTIC PLEDGER.

The Surveyor of the Atlanta Post gets his foe up. Yesterday afternoon the Wall street people were treated to a sensation. About half past three o'clock Mr. John Whitner, the insurance agent, approached the doctory leading to his office and found the same obstructed by W. A. Pledger and Mr. Peter Lawsh, of Gainesville, both of whom he requested to move. The white gentleman started off without saying a word, but as Pledger moved away, he began making remarks which were not appreciated by Mr. Whitner. Finally Pledger's talk became so offensive to Mr. Whitner that he sprang upon Pledger with a stick and a knife, ensued in which Pledger came out second best. Both parties to the fight will appear before the recorder this morning to answer to the charge of disorderly conduct, quarreling and fighting.

The Missing Courier Turns Up. Yesterday Mr. Will Harrison, brother of Mr. John Harrison, of Union county, the Constitution's missing Towns county courier, received a postal card from Blairsville which brings the first news of the lost courier. The postal card was from a friend, and of the all-absorbing theme simply said: "What do you think? John got here to-night—Saturday night." Where he has been and the cause of the delay in reaching his home are not given.

Spoken of for Speaker. WASHINGTON, November 15.—Mr. Kenna, of West Virginia, looks up as a candidate for speaker of the next house. He was quite a prominent member last session. He is serving his third term in congress. He is a young man, being only about 34 years of age. A good many here think that the party will not be able to settle on either Randall or Carlisle, and that a compromise man will get the prize. Kenna may be the fortunate man. He is also a candidate for the place of Henry G. Davis in the senate. Davis's term is out in March. Kenna may be too ambitious for so young a man.

Spoken of for Speaker. WASHINGTON, November 15.—The case against the Pullman car company is set for trial. The explanation of the delegation, headed by Hon. O. A. Lochrane, of Atlanta, Georgia, which waited on the minister of customs, was entirely satisfactory.

On the right hand of the stage in the Calhoun mansion parlor is noticed the marble head of Lepus Magnus, on the north end of Africa, which is over two thousand years old, and considered a very valuable antique. It was given to Miss Lewis by her father, who is a London artist (painter) of note. The New York Herald gave a description of the above when Miss Lewis came back from London last summer.

Under the auspices of

THE YOUNG MEN'S

A Real Wild Man.
From the Halley, I. Times.
Two cowboys who just came in from Camas prairie relate an experience which will probably go a great way towards re-establishing the popular faith in the wild man's tradition. On the first day of this month two cowboys, searching for cattle lost in the storm, passed over some lava crags and were startled by suddenly seeing before them the form so often described to them. They were so terrified that they sat upon their horses looking at it in dread. Mustering courage and drawing their revolvers they dismounted and gave chase, but the strange being skipped from crag to crag as nimbly as a mountain goat. After an hour's pursuit both young men were so completely worn out that they both laid down, seeing which the wild man gradually approached them and stopped on the opposite side of a gorge in the lava, from which point he regarded the cowboys intently. The wild man was considerably over six feet in height, with great muscular arms which reached to his knees. The muscles stood out in great knots and his chest was as broad as that of a bear. Skins were twisted about his face and parts of his body to be seen were covered by long, black hair, while from his head the hair flowed over his shoulders in coarse, tangled rolls and matted in a heavy beard. His face was dark and swarthy and his eyes shown brightly, while two tusks protruded from his mouth. His fingers were the shape of claws, with long, sharp nails, and he acted very much as a wild animal which is unaccustomed to seeing a man. The boys made all kinds of noises, at the sound of which he twisted his head from side to side and mourned, apparently he could not give them any "back talk," so, wearying of seeing him, the two boys fired their revolvers, whereupon the wild man turned a double somersault and jumped fifteen feet to a low bench and disappeared growing terribly as he went.

GRATITUDE
DENVER, Colorado, August 30, 1882.
Gents—I cannot find words with which to express my gratitude to you for the cure your Swift's Specific has effected in my case. I was afflicted with the horrible blood disease, and for three years, and after spending some time at the Hot Springs, considered my case a hopeless one. I used only one bottle of your medicine, and there is not a sign of the disease remaining. My sores are all healed, my throat is entirely well, and I am rid of the ingrowing drug that I had. I have seen so many hundreds of men dosed with calomel, iodine of mercury and iodine of potash, that I have learned to distrust all such remedies. I should think of the misery which has been brought on the human family by the use of mercurials for blood diseases. It is a crying shame that physicians will not acknowledge the merit of your GRANT blood medicine. I am a grateful debtor to you for the cure you have given me. I am, Sir, very truly,

A DOCTOR'S TROUBLES.

It is supposed that this is the same apparition that has so often been seen before. The man, no doubt, does as the Indians did, which grow wild by acres, and he no doubt kills young stock, as many yearlings and calves, disappear mysteriously and nothing but skeletons of them are ever found.

REMOVED EVERY SYMPTOM.
Swift Specific Co., Atlanta, Ga.
I have delayed this long in writing because I wanted to make a "double sure" in the trial of S. S. S. in my own case, and am most happy to report that it has entirely eradicated every symptom of the disease from my system. Had I followed the advice of Tom Swift in years gone by, it would have saved me the most excruciating suffering. I have not felt the least return of the disease, and can fully and truly recommend it to all suffering from the scourge, and especially to the physicians in Macon, who knew my condition; and when they saw the result of my cure, it has not only relieved me of pain, but has entirely removed every trace of the disease from my system, it ought to convince even the most incredulous. I do not wish my name to be used in any advertisement, but I am free to show my letter to those who formerly knew of my condition. It is a shame that human kind should suffer from the disease, and I am glad to see it laid down in the text books. Let me assure you of my gratitude, and believe me ever,
Yours truly,
R. C. M.

REMARKABLE!
LETTER FROM A TRAVELER.
KANSAS CITY, Mo., September 20, 1882.
I think it a duty to humanity to say that your remedy has done for me what I have been unable to do for myself. I contracted a bad case of blood disease, and not knowing the result of such a disease, I went to the Hot Springs, and after taking the first bath, I felt so much relieved that I bought five more, and in four days I was cured. I am now entirely cured, previously having been under medical advice for several months.

These agents necessarily regulate, build up, fortify and antagonize all existing female irregularities and excesses, or obstructions which produce the ill health. Come, Mr. False Prophet, keep the fun going.
Says Pennsylvania, all net state documents. The key stone state means that there is an irrepressible conflict between slavery and freedom, and one or the other must be destroyed. It is a battle between health and disease. Every force that fights successfully against disease should be heartily welcomed. Such a force is in itself—Hunt's Kidney and Special Line of attack is against kidney and liver diseases. The kidney is the wonderful triumph. THE VOICE OF THE PEOPLE.
 At the expiration of Alderman Beermann's
 term of office, the south side of the railroad
 will have no immediate representative in the
 aldermanic board, as there are two of the
 ones holding over from the north side. Jus-
 tice demands that Alderman Beermann's suc-
 cessor should be from the south side of At-
 lanta and they present the name of that old,
 tried, public spirited citizen, Major John H.
 Measlin, as a suitable man to fill the
 place and one that will be supported by the
 whole people of Atlanta.
